Work Experience

Artera
Remote
SOFTWARE ENGINEER I
Nov 2022- present

- Spearheaded interviewing committee to revamp interview process with goals of decreasing bias and improving candidate experience.
- Shared knowledge of new technologies used (Apollo, Hasura, GraphQL) across companywide engineering organization.
- Co-lead for remote connection across organization in newly formed connected employee committee.
- Set standards for GraphQL query writing in frontend for entire organization.
- During company wide hackathon, implemented various changes including code splitting and decreasing unnecessary API calls to improve application load time by 15%.

Artera (formerly Well Health)
Remote
ASSOCIATE SOFTWARE ENGINEER
Dec 2021- Nov 2022

- Created internal tooling to improve client onboarding and staff implementation of software and increase efficiency by 30%.
- Lead a migration of shared library of components from Kendo to MUI.
- Participated in task force to utilize hasura, apollo, and graphql in greenfield repository.
- Utilized scrum processes to succeed in agile environment while also keeping meetings lean to ensure team productivity.

Specbooks
Charlotte, NC
JUNIOR FRONTEND DEVELOPER
Apr 2021 - present

- Built and deployed a minimum of 1-2 e-commerce sites per week. Customized sites based on customer needs, while adding new weekly features using Agile development.
- Created generalized, reusable components for 4-5 different themes with focus on attractive user interface with efficient functionality; used by over 400 customer sites.
- Collaborated with backend engineers to create features for improving user experience of marketplace customer.
- Contributed to documentation and organization of e-commerce boilerplate application.
- Enhanced frontend performance by decreasing total blocking time, cumulative layout shift and time to interact.
- Improved application's accessibility by 20% by incorporating an accessibility library to enforce standards.

UNC Health Care
Siler City and Pittsboro, NC
PHYSICAL THERAPIST I
Aug 2019 - Sep 2020

- Performed evaluation and treatment for a variety of orthopedic, neurologic and pelvic health conditions for all genders.
- Provided patient-centered and outcome-driven care to 10-12 patients daily, which had measurable impacts on patients' quality of life.
- Lead the pelvic health outpatient program in Pittsboro, maintaining a full caseload as well as inventory management and staff education for appropriate referrals.
- Mastered EPIC electronic medical record and provided assistance to peers by educating on best practice and efficient use.
